- *Housing issue: County level v. state-level* [1] **[Delete. This is an EP.]**
 - Some people think housing is a county-level issue. Suppose people who believe this are at one end of a scale, at point 1. Other people think housing is a broader, state-level issue. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4. Where would you place yourself on this scale, or haven't you thought much about this? (reverse coded)
