Central Power & Light, West Texas Utilities, and Southwestern Electric Power (6)

- *Research* [2]
 - The following are some general questions about things some people might or might not consider important. For each one, please rate how important you think it is using a 0 to 10 scale, where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. For electric utilities to carry out research to develop better ways of producing and delivering power to customers even if that means paying higher electric bills.
 - The following are some general questions about things some people might or might not consider important. For each one, please rate how important you think it is using a 0 to 10 scale, where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. For the federal government to fund research into a variety of new technologies to produce electricity.
- *Conservation* [2]
 - The following are some general questions about things some people might or might not consider important. For each one, please rate how important you think it is using a 0 to 10 scale, where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. For utilities to reduce their use of natural gas and coal by helping their customers use energy more efficiently.
 - Now we would like to ask you about some specific issues CPL might consider in planning to meet the area's need for electricity. For each one please tell me how important you think it is for CPL to include it in its plans, using a 0 to 10 scale where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. Services and technologies which reduce the need for additional electric generation facilities.
- *Helping Low Income Customer* [2]

- The following are some general questions about things some people might or might not consider important. For each one, please rate how important you think it is using a 0 to 10 scale, where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. For utilities to tailor rates and energy management programs to make sure that low income customers are treated fairly.
- Now, for each of the following items please tell us if you agree strongly, agree mildly, neither agree or disagree, disagree mildly, disagree strongly, or if you just haven't thought much about it. Low income customers pay more than their fair share of the cost of electricity.
- *Use Renewables* [2]
 - Below are some characteristics of different kinds of resources that your utility might consider in meeting the electric needs of South Texas. Please tell us, in your view, how important each of the following characteristics should be for the utility to consider, using a 0 to 10 scale, where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. Using renewable resources such as the wind or sun.
 - Now we would like to ask you about some specific issues CPL might consider in planning to meet the area's need for electricity. For each one please tell me how important you think it is for CPL to include it in its plans, using a 0 to 10 scale where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. Generation by technologies such as wind and solar power.
- *Build Fossil Fuel Plant* [1]
 - Now we would like to ask you about some specific issues CPL might consider in planning to meet the area's need for electricity. For each one please tell me how important you think it is for CPL to include it in its plans, using a 0 to 10 scale where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. Generation using fuels like natural gas or coal.
- *Buying/Importing Power* [1]
 - Now we would like to ask you about some specific issues CPL might consider in planning to meet the area's need for electricity. For each one please tell me how important you think it is for CPL to include it in its plans, using a 0 to 10 scale

where 0 stands for not at all important, 10 stands for extremely important, and 5 stands for average importance. Building transmission facilities and purchasing power from outside South Texas.

• ~~Competition is Good~~

- ~~Now, for each of the following items please tell us if you agree strongly, agree mildly, neither agree or disagree, disagree mildly, disagree strongly, or if you just haven't thought much about it. The benefits of competition in the utility industry are more important than protecting customers and utilities through regulation.~~

Tomorrow's Europe (EU) (XXX)

- *EU Membership Policy* [1]
 - Some people think that your country's membership in the EU is an extremely bad thing. Suppose these people are at one end of a 0-to-10 scale, at point 0. Other people think that your country's membership in the EU is an extremely good thing. Suppose these people are at the other end of the scale, at point 10. People who are exactly in the middle are at point 5, and of course other people have opinions at other points between 0 and 10. Where would you place your views on this scale, or do you have any opinion about that?
- *Privatization* [1]
 - Some people think the government should provide a pension for all retirees. Suppose these people are at one end of a 0-to-10 scale, at point 0. Other people think that individuals should make their own decisions about investing in their pensions. Suppose these people are at the other end of the scale, at point 10. People who are exactly in the middle are at point 5, and of course other people have opinions at other points between 0 and 10. Where would you place your views on this scale, or do you have any opinion about that?
- *How to Pay for Pension*

The index is constructed as the mean of two items about getting people to work longer minus the mean of items about adding to the population via two different methods.

- Getting People to Work Longer: And how strongly would you favor or oppose each of the following as ways of paying for pensions?

- Adding to the population: And how strongly would you favor or oppose each of the following as ways of paying for pensions?
 - Letting more immigrants enter the labor market
 - Encouraging people to have more children

- *Migration* [1]
 - How much would you favor or oppose “Making it easier for workers to move between EU countries” as ways of competing in today’s global economy?
- *Free Trade* [3]

The index is constructed as the average of preference for increasing taxes on imports minus preferences for lowering barriers to international trade, and preference for protection from foreign competition.

 - Taxing Imports and Increasing Barriers to International Trade: How much would you favor or oppose each of the following as ways of competing in today’s global economy?
 - Lowering barriers to international trade
 - Increasing taxes on imported products
 - Protection from Foreign Competition: Some people think that your country’s industries should be protected against foreign competition. Suppose these people are at one end of a 0-to-10 scale, at point 0. Other people think that your country’s industries should be left to compete freely in the global economy. Suppose these people are at the other end of the scale, at point 10. People who are exactly in the middle are at point 5, and of course other people have opinions at other points between 0 and 10. Where would you place your views on this scale, or do you have any opinion about that?
- *Support for military action*

The index is constructed as the average of the mean of militarism, and mean of circumstances where military is justified minus overall thinking that military use is unjustified.

 - Militarism: How strongly would you agree or disagree with the following statements?
 - My country should strengthen its military power,
 - EU countries may sometimes have to use force without a UN mandate.
 - Circumstances Where Military Use is Justified: On a scale from 0 to 10, where 0 is completely unjustifiable, 10 is completely justifiable, and 5 is exactly in the middle, how justifiable would you say military intervention by EU countries for each of the following purposes could be, or do you have any opinion about that?
 - To prevent genocide in other countries,
 - To remove the threat of weapons of mass destruction, 12c) To defend economic interests
 - To defend another EU country against military attack.
 - Military Use Isn’t Justified: How strongly would you agree or disagree with the following statements?
 - Military action by EU countries is never justifiable
- *General Enlargement* [1]
 - How strongly would you agree or disagree with each of the following statements? Additional countries that meet all the political and economic conditions for membership should be admitted to the EU.

- *Turkey Enlargement* [1]
 - How strongly would you agree or disagree with each of the following statements?
If it meets all the political and economic conditions for membership, Turkey should be admitted to the EU.
- *Ukraine Enlargement* [1]
 - How strongly would you agree or disagree with each of the following statements?
If it meets all the political and economic conditions for membership, Ukraine should be admitted to the EU.
- *Croatia Enlargement* [1]
 - How strongly would you agree or disagree with each of the following statements?
If it meets all the political and economic conditions for membership, Croatia should be admitted to the EU.
- *Level of Decision Making* [9]

Mean of the nine items.

Let's start with a scale of 0 to 10, where 0 means that the individual member states make all the decisions, 10 means that the EU makes all the decisions, and 5 is exactly in the middle. Higher numbers mean more coordination between countries, while lower numbers mean more independent decision making by individual countries. On this 0 to 10 scale, how much of the decision-making in each of the following areas should be made by the individual member states versus the EU, or do you have any opinion about that?

 - Immigration
 - International trade
 - Employment
 - Pensions
 - Military action
 - Climate change
 - Foreign aid
 - Taxation
 - Energy supply
- *EU Veto Support* [4]

Mean of the four items.

Some people think all the decisions made at the EU level should require only the agreement of a large majority of member states, representing a large majority of the EU's population. Suppose these people are at one end of a 0-to-10 scale, at point 0. Other people think all the decisions made at the EU level should require the unanimous agreement of all the member states. Suppose these people are the other end of the scale, at point 10. People who are exactly in-between are at point 5, and of course other people have opinions at other points between 0 and 10. Where would you place your views on this scale, when it comes to...

 - Taxation decisions?

- Social policy decisions?
- Foreign policy decisions?
- Defense decisions?

- *Mandatory vs. Voluntary Revenue Sharing* [4]
 - Local Control: My town should maintain local control over all of its tax revenues from new businesses and industries—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know
 - Voluntary Sharing: My town should try for a voluntary agreement with other towns in the region to share some of the tax revenues from new businesses and industries—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know
 - State-encouraged Sharing: The state should provide incentives for towns in the region to share some tax revenues from new businesses and industries—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know
 - Mandatory Sharing: The state should require towns in the region to share some tax revenues from new businesses and industries—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know
- *Expanding vs. Ending Airport Service* [3]
 - Maintaining: Commercial passenger service to nearby cities should be maintained but not expanded to serve a larger market—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know
 - Expanding: Commercial passenger service should be expanded to provide more flights to more places—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know
 - Ending: Commercial passenger service should be ended, leaving only service for private airplanes—Agree strongly, Agree somewhat, Neither agree nor Disagree, somewhat Disagree, Disagree strongly, Don't know

By the People: National, National Issues Convention 2 (9)

- *Protecting the Environment* [2]

Average of two items asking whether the respondent supports or opposes “requiring higher mileage from automobiles even if that means less powerful automobile engines” and “requiring cleaner production of electricity, even if that means higher electricity rates” as ways of reducing greenhouse gases, then averages that with items asking what

priority, on a scale from 0 to 10, should be accorded “protecting the global environment” as “as a long range foreign policy goal” and to what extent “global warming is not really a problem so there is no need to do anything about it” versus “a serious problem [about which] we need to act now (both initially on 0 to 10 scales).

- *Fighting Terrorism* [7]

- Average of four items asking how much importance should the U.S. place on
 - “encouraging more democracy in Middle East countries like Egypt and Saudi Arabia,”
 - “increased foreign aid to countries that may be breeding grounds for terrorism,”
 - “working with other countries to identify and combat terrorism,” and
 - “building up our intelligence capabilities” as “ways of reducing future terrorism directed against the U.S.”
- The remaining ingredients are items asking what priority, again on a scale from 0 to 10, should be accorded
 - “preventing the spread of weapons of mass destruction,”
 - “fighting terrorism,” and
 - “protecting the U.S. from attack” as “long range foreign policy goal[s]” and to “discouraging countries from trying to develop nuclear weapons” as a reason for “provid[ing] foreign aid to other countries.”

- *Increasing Foreign Aid* [1]

- This is a single item asking whether “the amount of money the U.S. is now devoting to foreign aid should be increased, reduced, or kept about the same.” Some of the items in the next index may also be thought relevant, but empirically this item, with its explicit reference to spending and silence about purposes, stands apart.

- *Internationalism* [1]

- Here too we have only a single item, in this case asking how much one agrees or disagrees that “this country would be better off if we just stayed home and did not concern ourselves with problems in other areas of the world.”

- *Multilateralism* [XXX]

Two of this index’s ingredients are the differences between the strength with which the respondent supports or opposes American military action “with United Nations support” versus “acting alone” to “prevent mass killings in foreign countries” and to “prevent the spread of weapons of mass destruction to countries that might use them.” These differences then averaged with the responses to questions asking how strongly the

respondent agrees or disagrees that “the only way to solve environmental problems like global warming is through international agreements, requiring countries to work together;” how important it is to “work with other countries to identify and combat terrorism”; whether it is best to “work with groups of countries through international institutions like the World Trade Organization,” “to work with other countries one by one to establish agreements,” or “to leave things as they are” in dealing with international trade; and whether “the U.S. acting by itself,” “the U.S. acting with close allies like NATO,” “the U.S. & its close allies acting through the United Nations,” “the United Nations,” or “nobody” should “take the lead” in “trying to resolve international conflicts” and in “providing foreign assistance to other countries.”

- *Promoting Democracy* [XXX]

This index averages items asking whether the respondent agrees more that “the U.S. should be promoting democracy in other countries” or that “how other countries are governed is not our concern,” the priority that should be given to “helping newly democratic countries develop their democratic institutions” as a reason for “provid[ing] foreign aid to other countries,” and the pre-average of the importance that should be placed each of six “possible ways the U.S. might promote democracy outside of the U.S.” (“help[ing] with building democratic institutions,” “increasing trade,” “trade penalties for human rights violations,” “foreign aid,” “provid[ing] U.S. troops to help keep the peace,” and “increased support for organizations like the Peace Corps that send Americans abroad to help other countries”).

- *Fighting Poverty and Suffering* [XXX]

This variable specifically concerns foreign aid for food, medicine, and the alleviation of poverty. The index averages the priorities given to “providing food and medical help to poor countries” and “reducing world poverty” as “long range foreign policy goal[s],” and then pre-averages (a) the priorities given to “reducing hunger and disease in poor countries” and “helping poor countries develop their economies” as reasons for “provid[ing] foreign aid to other countries” and (b) the responses to questions asking whether the U.S., “as a global leader,” should spend more money to help fight world hunger in developing countries” and “to help fight the AIDS epidemic in developing countries” versus “concentrate[ing] on dealing with problems at home first.”

- *Human Rights* [1]

- This is a single item asking what priority should be given to “protecting human rights in other countries.”

- *Liberalizing Trade* [1]

- This is a single item asking whether the U.S. should “repeal the North American Free Trade Agreement, called NAFTA,” “leave NAFTA the way it is,” “adopt agreements like NAFTA but with more Latin American countries.”

- *More services / Higher taxes* [1]
 - Some people think the federal government should lower taxes, even if that means providing fewer services like health care and education. Suppose these people are at one end of a scale, at point 1. Other people think the federal government should provide more services like health care and education, even if even that means raising taxes. Suppose these people are at the other end, at point 7. People who are exactly in the middle are at point 4, and of course other people have positions at points 2, 3, 5, or 6. Where would you place yourself on this scale, or haven't you thought much about this?
- *Multilateralism (intervene with UN approval)* [1]
 - Here's the next issue. Some people feel the United States should intervene militarily when its interests are threatened without working through international organizations such as the U.N and NATO. Suppose these people are at point 1. Other people feel that we should not intervene without first obtaining international approval and cooperation. Suppose these people are at point 7. Using the scale shown below, where would you place yourself, or haven't you thought much about this?
- *Free trade vs. Protectionism* [1]
 - Here's the next one. Some people feel that we should pursue free trade even if that means some current American jobs are lost to companies abroad. Other people feel that we should protect American industries even if that means we lose markets for our goods abroad. And of course, other people fall somewhere in between. Where would you place yourself on this issue, or haven't you thought much about this?
- *Constitutional rights vs. Find every potential terrorist* [1]
 - When it comes to protecting the country from terrorism, some people say it is important to ensure people's constitutional rights, even if it means that some suspected terrorists aren't found. Suppose these people are at point 1. Others say it's important to find every potential terrorist, even if some innocent people are falsely accused, interrogated, or imprisoned. Suppose these people are at point 7.

Where would you place yourself on this scale, or haven't you thought much about this?

- *Health insurance: Govt. vs. Private [1]*
 - Some people feel that the federal government should make sure that everyone has adequate health insurance. Suppose these people are at one end of a scale, at point 1. Other people feel that health insurance should be left up to individuals and their employers. Suppose these people are at point 7. Where would you place yourself on this scale, or haven't you thought much about this?
- *Gay marriage: Allow marriage vs. Constitutional amendment to ban gay marriage [1]*
 - Finally, some people believe that two people of the same sex should be able to marry just like anyone else. Suppose these people are at point 1. Other people think there should be a constitutional amendment to prohibit gay marriage. Suppose these people are at point 7. Where would you place yourself on this scale, or haven't you thought much about this?

- *Reforming education [1]*
 - "In order to improve public education in America, some people think the focus should be on reforming the existing public school system. Others believe the focus should be on finding an alternative to the existing public school system. Which approach do you think is preferable? (0 = Finding an alternative system; 1 = Reforming the existing system)"
- *Charter Schools vs. Vouchers [2]*
 - Fund more charter schools with money from the public school system (1=Strongly agree)
 - Provide vouchers to pay some or all of the cost of private schools with money from the public school system (1=Strongly agree)
- *Tax Money to Public Schools [5]*
 - Provide more money for the most troubled public schools even if this means raising taxes (1=Strongly support)
 - Provide more money for public schools to pay for smaller class sizes even if this means raising taxes (1=Strongly support)
 - Provide more money for public schools to pay for new technology even if this means raising taxes (1=Strongly support)
 - Provide more money for public schools to pay teachers even if this means raising taxes (1=Strongly support)

- How important would you say it is that the nation's schools focus on improving the following?: Funding (1=Extremely important)
- *Standardized Testing* [2]
 - In your opinion is there too much emphasis on standardized testing in the public schools in your community, about the right amount, or not enough emphasis? (0 = Too much, .5 = About the right amount, 1 = Not enough)
 - Some people think increased use of standardized tests in the public schools is good because it helps evaluate the performance of students and schools. Some people think it is bad because it forces teachers to emphasize only what is measured in the tests. Indicate whether you think it would be bad or good to increase the use of standardized tests in the public schools.
- *Control of Educational Testing: Local Boards vs. States* [1]
 - Some people think that tests for student achievement should be set at the state level and applied in the same way to all students in the state. Others think that local school boards should make these decisions in each community. Which do you think? (0 = Decisions about testing should be made at the state level; 1 = Decisions should be made by local school boards in each community)
- *No Child Left Behind* [1]
 - From what you know or have heard about the No Child Left Behind Act, do you approve or disapprove of it or couldn't you say? (5-pt scale; 0 = strongly approve, 1 = strongly disapprove)
- *Willing to Pay More For Better Health Coverage* [4]
 - The cost of health insurance (0=completely unimportant; 1=extremely important)
 - The number of Americans without health insurance (0=completely unimportant; 1=extremely important)
 - "The cost of prescription drugs (0=completely unimportant; 1=extremely important)
 - Would you be willing to pay more than you do now for health care if this meant that many more Americans would have health insurance coverage? (0 = No; .5 = Yes, at least slightly more; 1 = Yes, significantly more)"
- *Role of Government in Healthcare* [2]
 - The US should adopt a single-payer system, where a government entity accepts all healthcare fees and pays out all healthcare costs for everyone. (5-pt scale; 1 = strongly agree, 0 = strongly disagree)

- The US should increase funding for Medicare and Medicaid even if this means increases in taxes. (5-pt scale; 1 = strongly agree, 0 = strongly disagree)
- *Quality of Medical Care* [3]
 - Medical errors or mistakes (0=completely unimportant; 1=extremely important)
 - The medical malpractice system (0=completely unimportant; 1=extremely important)
 - Quality of health care provided to those with insurance (0=completely unimportant; 1=extremely important)
- *Employers Must Provide Health Insurance* [1]
 - The US should require employer coverage of health care, where every employer must provide insurance for all workers. (5-pt scale; 1 = strongly agree, 0 = strongly disagree)
- *Individuals Must Buy Health Insurance* [1]
 - The US should require individual coverage, where individuals must buy minimal coverage, perhaps funded by a tax credit. (5-pt scale; 1 = strongly agree, 0 = strongly disagree)

- *Create more housing* [1]
 - Some people think we should create more housing in the county. Suppose people who believe this are at one end of a scale, at point 1. Other people think we should restrict housing growth in the county. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4, and of course other people are at points 2, 3, 5, or 6. Where would you place yourself on this scale, or haven't you thought much about this? (reverse coded)
- *Require some homes to be sold below market rate* [1]
 - Some people think developers should be required to provide a certain portion of their homes at prices below the market rate. Suppose people who believe this are at one end of a scale, at point 1. Other people think developers should be allowed to sell homes at whatever price the market will support. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4. Where would you place yourself on this scale, or haven't you thought much about this?(reverse coded)
- *Open space areas rezoned to allow housing* [1]

- Some people think that any new housing should be located in already developed areas. Suppose people who believe this are at one end of a scale, at point 1. Other people think that any new housing should be located in currently protected open space areas rezoned to allow housing developments. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4, and of course other people are at points 2, 3, 5, or 6. Where would you place yourself on this scale, or haven't you thought much about this?
- *Attract jobs v. Restrict commuters* [1]
 - If new housing is restricted, some people think we should still try to attract new jobs to the county, even if that increases the number of commuters. Suppose people who believe this are at one end of a scale, at point 1. Other people think we should try to minimize the number of commuters, even if that reduces job growth. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4. Where would you place yourself on this scale, or haven't you thought much about this?
- *Increase public consultation* [1]
 - On a scale of 0 to 10, where 0 is completely unimportant, 10 is extremely important, and 5 is exactly in the middle, how important would you say it is to increase public consultation in the planning and approval of new housing development?
- *Land use: Local control v. regional coordination within county* [1]
 - Some people think local communities should retain control over land use. Suppose people who believe this are at one end of a scale, at point 1. Other people think land use policies should be coordinated countywide. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4. Where would you place yourself on this scale, or haven't you thought much about this?
- *Housing issue: County level v. state-level* [1]
 - Some people think housing is a county-level issue. Suppose people who believe this are at one end of a scale, at point 1. Other people think housing is a broader, state-level issue. Suppose people who believe this are at the other end, at point 7. People who are exactly in the middle are at point 4. Where would you place yourself on this scale, or haven't you thought much about this? (reverse coded)
