[]-[] Our first questions are about education.

[q1] Students are often given the grades A, B, C, D, or FAIL to denote the quality of their work. Suppose the public schools themselves, in your community, were graded in the same way. What grade would you give your community's public schools?

<5/A> A

<4/B> B

<3/C> C

<2/D> D

<1/Fail> Fail

<7/DK> Haven't thought much about it.

[q2] How about the public schools in the nation as a whole? What grade would you give the public schools nationally?

<5/A> A

<4/B> B

<3/C> C

<2/D> D

<1/Fail> Fail

<7/DK> Haven't thought much about it.

[q3] In order to improve public education in America, some people think the focus should be on reforming the existing public school system. Others believe the focus should be on finding an alternative to the existing public school system. Which approach do you think is preferable?

<1/Reform> Reforming the existing system

<2/Alternative> Finding an alternative system

<7/DK> Couldn't say

[q4] In your opinion is there too much emphasis on standardized testing in the public schools in your community, about the right amount, or not enough emphasis?

<3/'too much'> Too much

<2/'about right'> About the right amount

<1/'not enough'> Not enough

<7/DK> Couldn't say

[]-[] Some people think increased use of standardized tests in the public schools is good because it helps evaluate the performance of students and schools. Some people think it is bad because it forces teachers to emphasize only what is measured in the tests.

[q5] On a scale of 0 to 10, where 0 is very bad and 10 is very good, and 5 is neither bad nor good, indicate whether you think it would be bad or good to increase the use of standardized tests in the public schools.

<0/'very bad'>0 - Very bad

 <5/'neither bad nor good'> 5 - Neither bad nor good
 <6> 6
 <7> 7
 <8> 8
 <9> 9
 <10/'very good'> 10 - Very good
 <77/DK> Couldn't say

[q6] Some people think that tests for student achievement should be set at the state level and applied in the same way to all students in the state. Others think that local school boards should make these decisions in each community. Which do you think?

<1/State> Decisions about testing should be made at the state level
 <2/Local> Decisions should be made by local school boards in each community
 <7/DK> Couldn't say
