8. PEOPLE ADMINSTER JUSTICE (Single Item)

Q16: Which of the following two positions do you support?

A: If people are allowed to take the law in their hands that would make the legal system more efficient.

B: If people start administering justice themselves, there will be chaos in the country and no one could feel safe.

Coding: 0=A, .25 = A over B, .5=Both, .75 = B over A, 1=B

9. INSTITUTIONAL CHANGE (Single Item)

Q21: There are different opinions on the problems with the law enforcement system in Bulgaria. Which is closest to yours?

1: The system is good, the problem is with the individual people working in it and not performing their duties

2: People need not be changed. What is necessary is institutional changes in the powers of the different branches in the justice system.

Coding: 1 = 0, 2 = 1

10. INDEPENDENCE OF INVESTIGATION SERVICE (Single Item)

Q22: One of the issues much debated recently is the place of the investigation service with a view of increasing the efficiency of preliminary investigation. In your opinion:

1: It is better if the Investigation service is within the Ministry of Interior so that there is better coordination between the police and the investigation

2: It is better if the Investigation service remains independent to create guarantees for unbiased operation taking into account the interest of both the defendants and the public.

11. PROSECUTION

Q23: Another controversial issue being debated lately is the place of the prosecution. Which of the following opinions is closest to yours?

1: The Prosecution should be part of the executive branch

2: The Prosecution should remain as it is now - part of the judicial branch

3: The Prosecution should be accountable to Parliament
