Australian Constitutional Referendum Study, 1999 [computer file] / Principal investigators David John Gow, Clive Bean and Ian McAllister. Canberra: Social Science Data Archives, The Australian National University [distributor], 2000.

1 data file (3400 logical records) + accompanying user's guide.

Summary: The 1999 Australian Constitutional Referendum Study was conducted to investigate the Australian electorate's attitudes towards the significant political issues surrounding the 1999 constitutional referendum. As part of the Australian Election Study series, the 1999 ACRS provides a perspective on the political attitudes and behaviour of the Australian public which, in turn, can be compared to those attitudes recorded at past and future electoral events. The 1999 ACRS also functions more specifically as a means of investigating the patterns of public opinion concerning the republic and its specific features.

Variables include voting preference; degree of exposure to media reporting of the Referendum; level of interest in the Referendum debate; past and present political affiliation; party voted for in the last (1998) election; evaluation of parties, politicians and key participants in the Referendum debate; views on national identity, preferred head of state and the importance of the Queen and the Royal Family to Australia; knowledge of the current role of the Queen and the Governor General and future role the President if Australia became a republic; perceived changes to powers held by the Prime Minister and the President, political stability in Australia, Australia's standing in the world, and ease of future constitutional reform; attitudes to a range of issues including unions, big business, income distribution, law enforcement, equal opportunities for migrants/women, Aboriginal land rights; and views on the preferred function of society, government and the law.

Background variables include level of education, employment status, occupation, type of employer, position at workplace, trade union membership, sex, age, own and parents country of birth, parents' political preferences, religion, marital status, income, and where applicable, the occupation, trade union membership and political preference of the respondent's spouse.

SOCIAL SCIENCE DATA ARCHIVES

The Social Science Data Archives (SSDA), established in 1981, is located within the Research School of Social Sciences at the Australian National University. The role of the Archives is to collect and preserve computer-readable data relating to social, political and economic affairs and to make that data available for further analysis. The SSDA actively seeks social science data from universities, government organisations and market research companies within Australia to ensure that data which might otherwise be lost is preserved for future use. The SSDA also obtains data from overseas data archives on request from Australian researchers.

The Archives accepts only computer-readable data, preferably on disk or CD-Rom, and requires documentation describing the data - for example, a questionnaire, coding frame, and a copy of any written documents or publications describing the data collection procedures. These assist the SSDA in processing the data so that they may be reliably stored, catalogued, indexed, and accessed by standard statistical software - and made available to users for secondary research.

The SSDA holds over 1000 datasets, including opinion polls, Census data, and survey data from many fields of social science. Complete information about the SSDA and its holdings is available on its WWW pages at <http://ssda.anu.edu.au/>

For further information, please feel free to phone or write to us.

persons on the Australian electoral roll at the close of rolls, November, 1999.

Sampling Procedures

stratified systematic random sample

The sample of electors for all Australia was drawn from the Commonwealth Electoral Roll by the Australian Electoral Commission following the close of rolls for the 1999 referendum. The Commission supplied names and address information only, to be used for this study alone.

The sample is stratified by State/Territory, as follows: 1000 for each state (NSW, Vic, Qld, WA, SA and Tas), 100 for the ACT and 50 for the Northern Territory.

Number of Units (Cases)

number of units in original sample: 6150

number of units out of scope:

 return-to-sender: 231

 received - filled out by someone else: 6

 received - person deceased: 5

 received - person incapable of filling in: 84

 received - person away/overseas/in gaol: 28

number of replacements: 0

number of units in scope: 5796

number of cases (unweighted): 3400

Dates of Data Collection

first date of data collection: 5 November 1999 (mail-out date)

last date of data collection: 11 February 2000 (closing date for returns)

Method of Data Collection

self-completion (mail out, mail back)

Actions to Minimise Losses

A thankyou/reminder postcard was sent to all respondents and non-respondents 11 days after the original mail-out (16 November 1999). A second reminder letter and questionnaire were sent to remaining non-respondents three weeks after the original mail-out (30 November 1999). A final reminder letter and third questionnaire were sent five weeks after the original mail-out (17 December 1999).

QUESTIONNAIRE

CONFIDENTIAL

Australian Constitutional Referendum Study

HOW TO FILL OUT THIS QUESTIONNAIRE

To answer most of the questions you only need to **circle a number**. Please circle the number which is **closest** to your view—there are no right or wrong answers. Here is an example.

Do you think the government should spend more or less on education?	
Spend more on education	1
Doesn't matter	2
Spend less on education	3
If you think the government should spend more on education, you would circle "1" as shown.	

Sometimes you are asked to write in an answer — in that case, simply write your answer in the space provided.

Please read each question carefully. And remember, we just want to know **your own** personal views.

Please return the completed questionnaire in the post-paid envelope provided to: Australian Constitutional Referendum Study Research School of Social Sciences Australian National University Locked Bag 8650 Canberra ACT 2601
--

We hope you enjoy the questionnaire. And thank you very much for taking part in this study.
